

OMKAR DILWALE

MERN-Full Stack Developer | Gen-AI Developer | IIT-J Alumnus

📞 9561189091 @omkariitj@gmail.com 🌐 <https://www.linkedin.com/in/omkar-dilwale-09b996164/> 📍 Pune, India

SUMMARY

Results-driven **Full Stack Developer** with **5+ years of experience** building scalable, secure, and high-performance web applications using **MERN stack and GenAI integrations**. Sole developer for multiple **enterprise-grade insurance and media portals**, trusted by global clients. Strong background in **backend validation systems, OCR pipelines, microservices, and AI-assisted automation**. M.Tech graduate from **IIT Jodhpur**, known for ownership, clean architecture, and delivering production-ready systems end-to-end.

Frontend: React.js, Next.js, Redux, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, Express.js, REST APIs, Microservices Architecture

Databases: MongoDB, PostgreSQL, MySQL

GenAI & AI: OpenAI APIs, Prompt Engineering, OCR Pipelines, AI-assisted Validation Systems

Cloud & DevOps: AWS, Docker, CI/CD Pipelines

Security & Auth: JWT, OAuth, Role-based Access Control

Tools: Git, GitHub, Postman, Jira, Grafana

I am focused Full Stack Developer with nearly 5 years of experience in Node.js and the MERN stack. I have owned and delivered enterprise-grade applications end-to-end in high-impact domains. I am an IIT Jodhpur M.Tech alumnus with strong problem-solving skills and practical GenAI experience. I bring a senior individual-contributor mindset with clear growth toward lead responsibilities.

EDUCATION

Bachelor of Technology (B.Tech)

EXPERIENCE

Full Stack Developer

[Apexon India \(Backed by Goldman Sachs\)](#)

📅 06/2024 📍 Pune, India

- Serving as a **senior individual contributor with lead-level responsibilities**, owning multiple **Tata AIA Life Insurance platforms** end-to-end.
- Independently driving **system architecture, development, and deployment** for enterprise-grade MERN applications.
- Designing scalable **Node.js microservices** and reusable validation engines to support high-volume onboarding and document processing.
- Owning backend design for **OCR-driven verification systems** (Salary Slip, ITR, Form-16, AML) with strict financial and compliance rules.
- Integrating **GenAI-assisted automation** for document extraction, anomaly detection, and decision support to reduce manual review.
- Guiding and supporting **interns and junior developers**, reviewing code, unblocking technical issues, and ensuring quality standards.
- Collaborating directly with **clients, product owners, and QA teams**, translating business and regulatory requirements into robust solutions.

Impact:

- Reduced document verification errors by **40%+**
- Improved processing turnaround time by **35%**
- Delivered multiple production releases with **high stability and zero critical rollbacks**

Full Stack Developer

[Flutr Digimate Pvt. Ltd. \(Backed by Times of India\)](#)

📅 06/2023 - 07/2024 📍 Kolkata, India

- Led development of internal TOI enterprise portals using the MERN stack, supporting large-scale operational and editorial workflows.
- Designed and implemented React-based dashboards with complex state management, role-based access, and performance optimization.
- Built secure, scalable Node.js REST APIs and optimized MongoDB queries for high-traffic internal systems.
- Introduced GenAI-assisted internal tools for content processing and workflow automation.
- Mentored junior developers, performed code reviews, and enforced best practices across frontend and backend.
- Improved system performance and API response times by 30%.
- Reduced manual operational effort through automation and smarter workflows.

Full Stack Engineer

[Hackx Security Pvt. Ltd](#)

📅 05/2021 - 05/2023 📍 Pune, India

- Core contributor to building a SaaS security platform from ground up using React, Node.js, and MongoDB.
- Developed reusable frontend components and scalable backend services following clean architecture principles.
- Implemented authentication, authorization, and secure data handling mechanisms.
- Worked on early AI-driven security and analysis features, gaining hands-on exposure to applied AI in production systems.
- Collaborated closely with founders and product teams in an agile, fast-paced startup environment.
